Drawer shelf in country house style

Instructions No. 985

An incredibly versatile drawer rack which only is waiting to be designed by you. The individual boxes offer a lot of storage space and if that is not enough for you, you can expand this shelf as you wish. Individually designed and decorated, it will quickly become a unique item in your home.

And it is as simple as this:

Prime all parts of the shelf in white and let them dry. Cut out the Napkins-motifs and stick them on with Napkin varnish . When the Napkin varnish is well dried, carefully cut out the drawers and openings with a scalpel. Finally, accentuate the edges with the black paint by simply stroking roughly along the edges with a brush.

This idea is timelessly beautiful!
