gift tags with frost effect

Instructions No. 3163

Difficulty: Beginner

Working time: 2 Hours

There are few better ideas for adding a festive and personal touch to your Christmas gifts than homemade gift tags. In this step-by-step guide, we'll show you how to create pretty frost-effect gift tags with just a few materials that are guaranteed to wow.

Before you start, print out the template for the stars. You will need a positive and a negative star. Carefully cut out both stars.

Step 1:
Spray the cut-out stars with adhesive spray. These will serve as templates for your acrylic-pendants. Carefully place the stars on the acrylic-pendants. Make sure they adhere well to achieve a clean result.

Step 2:
Put some frost effect paint on a painting plate. Now use a paint sponge to dab the sprayed acrylic-pendants. Work in gentle, dabbing movements to create an even frost effect. Allow the paint to dry thoroughly before continuing.

Step 3:
Once the paint has dried, you can turn the pendants over and label them. Use a waterproof pen or special acrylic pens, to ensure that the lettering does not smudge.

Step 4:
Fold the gift boxes carefully and fill them as desired. Now close the box by folding over the top part of the box and inserting a round head clip through one of the holes and opening it at the back.

Step 5:
undo the knot of the ribbon from the acrylic-pendant and take small twigs from a fir branch. Tie the small twigs to the gift box together with the acrylic-tag. This will give your packaging not only only a festive but also a natural touch.

Must Have

Acrylic Decorationpendant "Christmas tree" with ribbon, set of 3

Content: 3 pieces
Width: 6 cm
Height: 8 cm
Thickness: 0.3 cm
Material: Acrylic
