Romantic table decoration

Instructions No. 2152

Difficulty: Beginner

Working time: 5 Hours

Nothing stands in the way of a cosy breakfast in bed with this romantic decoration. The tray with fold-out feet and the etagere were designed with craft colours and decorated with the napkin technique. The coffee mugs were simply labelled with porcelain paints.

Tray:

1. Prime the tray with white craft paint. Allow to dry.

2. Cut out the desired motifs of the napkin and remove the unprinted layers.

3. Glue the printed layer onto the tray with napkin varnish. To do this, first apply the glue, place the motif and paint over it with the glue. You don't know how the napkin technique works and still need information and tips? Here you can find the exact explanation.

4. Now decorate the tray with craft colours.

5. Coat the entire tray with napkin varnish to seal it.

Etagere:

1. Unscrew the etagere.

2. Prime the etagere with white craft paint. Allow to dry.

3. Cut out the desired motifs of the napkin and remove the unprinted layers.

4. Stick the printed layers onto the bottoms of the etagere with napkin varnish.

5. Design the etagere with further craft colours. Allow to dry.

6. Important: seal the etagere with clear varnish. This is odourless, waterproof and certified for direct food contact.

7. When everything has dried, the etagere can be assembled.

Coffee mug:

1. Either draw any lettering on the cups freehand (a line-ex pen, for example, is suitable for pre-drawing) or print out a lettering and transfer it with the help of graphite paper.

2. Trace the pre-drawn lines with a contour pencil.

3. Add the red hearts.

4. Allow the paint to dry according to the instructions on the pack and bake in the oven.
