Design your own planting bowl with bright colors and flower arrangements that will bring good mood and color into your home. You can find out how to do this in our instructions. Thanks to the fabric flowers the colour and freshness of the flowers will last.

And it is as simple as that:

How do I design the planting bowl?

First, prime the entire bowl with white Acrylic paint. Emphasize the edges with a little orange. The metal flowers on the back wall are painted in Pink and painted green and wiped with a little white paint. Paint the centre of the flowers yellow.

How do I arrange the flowers in the box?

Cut some dry plugging compound to size and put them in the planting bowl. Cover the whole thing with moss and then place the bouquets nicely distributed.

Glue some plug wire to the small figures and stick them to the edge of the bowl.

Finally, you can apply tape-Ribbon to the upper area and the front of the plant tray. Then fix the Gift ribbon on it and enjoy the sight of this colourful freshness.
