Anleitung: Lampenschirm mit Strohseide in Schwarz-Weiß selbst gestalten

Instructions No. 1080

Black-white is a trendy colour combination in the entire decoration area. Matching the Black-white trend, many beautiful decorative objects such as pictures, vases, cushions or lamps can be coloured. In this handicraft guide you will find a description for decorating a lampshade with a bird motif, which can be perfectly combined with your decorations in Black-White. In just a few steps you can create your individual Lampshade with Napkin and Straw silk paper.

And it is as simple as this: Which

craft material do I need for the Lampshade in Black-white?

The Lampshade is designed with Straw silk paper, Napkin and a border for the upper and lower edge. For fixing and cutting we recommend silhouette scissors, spray glue and Napkin varnish.

How do I tinker with a bird motif at Lampshade ?

First, glue Lampshade with straw silk. Cut Straw silk paper to size on the sides of the lampshade and fix it with Napkin glue on the Lampshade. Let the motif straw silk dry

Now cut out the bird motif from the Napkin . The Napkin consists of different layers Paper. After cutting

out, carefully remove the top layer of paper with the motif print from the Napkin. Spray the back of the motif with spray adhesive, position the Napkin carefully on the Lampshade and press it carefully with a soft brush from the inside to the outside. Make sure that the Napkin lies smoothly on the Lampshade and does not wrinkle. Let the glue dry

Finally, you can spice up the lamp with a pretty Lace-border. The tip is already equipped with an adhesive strip, so you still have to place it only and press it on the screen

Important tip when tinkering with Napkin technique:

- **Motifs of a Napkin can be cut out particularly well with silhouette scissors, as these are particularly suitable for filigree cutting work.**
- **It is worth using a special napkin brush for Napkin technique and for handicrafts with Straw silk paper , because it has particularly soft bristles. The thin fabric of Napkins or of Straw silk paper is pressed particularly gently, you avoid damage to the paper.**
