How do I use the Napkin technique ?

Take a Napkin and carefully cut out the flowers and leaves with silhouette scissors. Glue the motifs with Napkin glue onto the primed and dried aluminium and emboss the shapes with a punch. With a side cutter you can cut off the excess aluminium.

Distribute the moss evenly in the planting bowl
Take flowers, leaves and ribbons to a loop and fix them on the plug wire with some hot glue. Then stick the wire with the flowers in the spaces between the moss in the plugging compound.
