Birdhouses with napkin technique

Instructions No. 2470

Difficulty: Beginner

Working time: 3 Hours

Aren't these **birdhouses** eye-catching? And they are very easy to make - with a little paint and a pretty **napkin** you can create beautiful decorative birdhouses for your home.

This is how you design the houses:

First, prime the **birdhouses** with white **craft paint** so that the **napkin motif** is clearly visible later. To do this, apply an evenly thin layer of craft paint with a brush. Allow the first layer of paint to dry thoroughly. As this is a highly absorbent surface, you may need another coat this way. This will give you a more thorough colour result. Wash out the brush thoroughly for the next step and let it dry.

Now paint the roofs in any colour you like.

Cut out the desired **napkin motif**. Then remove the two unprinted layers of the napkin and place the motif on the bird house. Take a napkin brush and coat the napkin from the inside to the outside with **napkin varnish**.

Now you can decorate the birdhouses as you like, for example with **scatter pieces, ribbons, rhinestones** and much more.
