Bottle lanterns

Instructions No. 3268

Difficulty: Beginner

Working time: 1 hour

The **decoupage technique** can be used to create highly decorative light objects from simple **lanterns**.
Find out here how you can decorate bottle-shaped lanterns with decorative **decoupagePaper**.

Design a lantern bottle with decoupage

Decoupage is the technique of decoratively sticking high-quality **motif straw silk**, specially developed for this hobby, onto objects:

Take the **decoupage-straw silk paper,** , choose your favorite motifs and cut them out carefully.
Coat the lantern bottle evenly with **paperpatch glue** (decoupage glue) and then apply the straw silk paper as

smoothly as possible.
This works best if you use a soft **brush** to smooth it out.

Then seal the Paper with another layer of glue, as this is transparent and therefore serves as a protective varnish.
Decorate a second wind light-bottle in the same way.

For the perfect look, use **double-sided adhesive tape** to stick a **decorative ribbon** around the bottle on the edge of your glued-on straw silk paper. ribbon.

If you now place an **LED tea light** in each bottle, your bottle lanterns are ready to hang.
