Braided Ring Decoration

Instructions No. 2596

Difficulty: Beginner

Working time: 2 Hours

Isn't this wreath great? You can easily make it yourself with just a few materials and hand movements. The braided cords and dried flowers make the ring something very special.

This is how the wreath is designed:

Cut 6 pieces of the **macramé cord** of approx. 1.5 m each.

Divide the 6 cords so that you have 3 x 2 cords. Braid them until the braided piece reaches once around the **metal ring**.

Attach the braided cord to the metal ring with hot glue and decorate the ring with **dried flowers**. The "seam" can be cleverly hidden here.

Take two more pieces of macramé cord and double them. Loop them around the top of the ring with a lark's head knot. Thread a wooden ball onto the middle two cords and tie two square knots above the ball to secure it.
