Colorful Alcohol Ink lantern glasses

Instructions No. 2157

Difficulty: Beginner

Working time: 1 hour

We can never get enough of pretty little tea lights! This idea shows you how easy and fast to create effective unique pieces with Alcohol Ink. The lantern jars are great new lights for outdoors as well as indoors. They are also ideal as a small gift.

Simple, fast, ingeniously designed

Alcohol Ink is a wonderfully intense alcohol-based ink. To make this ink last on the lantern glasses, you should first clean the glass so that it is absolutely free of grease and dust.

Simply drip the Alcohol Ink paint onto the glass. When you blow the paint in different directions with the bellows, "paint bubbles" are created, which provide the special color effects on the glass. Each glass is thus uniquely designed. The paint dries quickly.

Place 1 candle wick in each of the lantern jars and fill with candle sand - you're done!
