

Colorful DIY Candle for confirmation

Instructions No. 3619

Difficulty: Beginner 🍃🍃🍃🍃

Working time: 30 Minutes

Are you looking for unique confirmation cards or a particularly beautiful candle for your confirmation? Find out here how you can create a beautiful candle decoration with simple materials and just a few steps, as well as extraordinary cards to match. These step-by-step instructions will show you how to conjure up a real highlight using candles, cards and paper and a little creativity.

Coloured circles made from fibre silk

With the "Circles" punching template, you can make coloured circles in different sizes and colours from fibre floss in no time at all. The stencil is suitable for all conventional hobby punch- & embossing machines.

To design the candle, stick the cut-out circles together with a little handcraft glue. Arrange the circles however you like best! Decorate the circles with a decorative stamp motif to match the occasion.

Designing confirmation cards

Glue the punched-out circles to the card and envelope using handcraft glue. Play with different arrangements to find the best design. Cut a strip of vellum paper and use the stamp to place a message or motif of your choice on the paper.

Fold the strip of tracing paper around the edges of the card and stick it to the inside of the card to hold it in place and create stability. It will give your card an elegant touch.

Decorate the candle

Now place the fiber silk on your pillar candle. To ensure that the fiber silk adheres perfectly to the candle, stretch a piece of baking paper tightly over it and heat it carefully with an embossing dryer.

Caution: As soon as you see that the wax grease on the surface of the candle is liquefying, you should switch off the dryer. A short cooling phase is necessary before you slowly and carefully remove the baking paper. This ensures that the fibrous silk sticks securely to the candle.

Make a rail out of wooden blocks

The block rail is a special highlight of your craft idea. It is not only particularly decorative but also a sustainable gift wrapping.

Start by stamping "Confirmation" on one of the blocks.

Then glue two blocks together on the long, narrow sides to form the base plate of the rail. Glue two more blocks upright on the edge of this sock so that the stick candle can fit between them. Allow everything to dry well before continuing.

Making a candle gift

Place the previously designed candle in the block rail. Tie the candle around the blocks with a cord . The cord not only holds the candle in the rail, it is also a decorative ornament.

Place a stamp motif and your message on a gift tag. The tag adds a personal touch and enhances the entire decoration. Tie it to the cord, which is tied around the blocks.

Try it out for yourself and surprise your loved ones with a personalized candle decoration. Discover the materials you need in our online store. Whether as a gift or to beautify your own four walls - with a self-made candle you have created something special.

Must Have

Stick candle, Ø 2.2 x 25 cm, White
