Counting help for children

Instructions No. 2235

Difficulty: Beginner

Working time: 5 Hours

Learning to count is very easy for children with this great help and is a lot of fun at the same time. This way, the child can already learn the numbers from 1 to 10 before school.

1. Put 45 wooden balls on bamboo skewers and paint them with KREUL Nature colours.

2. For the counting sheet, glue 6 unpainted wooden balls onto the glueboard with wood glue.

3. Cut the rattan cane to the desired lengths with a side cutter and fix one side each in a wooden ball with some wood glue.

4. As soon as the glue has dried, draw 10 painted wooden balls each onto the rattan cane.

5. Fix the ends of the rattan cane in the opposite wooden balls with glue.

6. Glue 5 unpainted wooden balls on the other side of the glued wood panel.

7. Shorten 5 bamboo skewers and fix them in the balls with some glue.

8. Paint the wooden numbers 1-5 with colours, add accents with a white marker when dry and glue them in front of the bamboo skewers.

9. Stick the coloured wooden balls onto the bamboo skewers according to the numbers.

10. Paint 10 wooden rings with the Nature colours and add numbers to the edges after they have dried.

11. Now saw a beech round stick to the desired length, sand the edges and glue them to the wooden board with glue. Stack the wooden rings in order over the round stick.
