Create wintry wooden plug-in motifs

Instructions No. 3453

Difficulty: Beginner

Working time: 4 Hours

Winter is just around the corner and what could be nicer than transforming your home into a cozy **winter wonderland**? With our instructions, you can create **enchanting wooden stick motifs** with a wintry flair. This individual decoration will not only only brighten up your four walls, but also express your creative talent. Let your imagination guide you and create impressive scenes that will not only amaze only you, but also every visitor. The use of high-quality craft paints, sparkling LEDs-chains of lights and delicate decorative elements guarantees a unique result.

Enchant your home: creative wooden plug-in motifs in winter design

Step-by-step instructions: Create winter wooden stick motifs

Prepare and apply paints

Pour some of the desired craft paints onto a paint palette. Carefully paint the wooden stick motifs with a brush. If you want to combine different shades, you can simply mix the craft paints together - this creates unique nuances that make your motifs look vibrant.

Leave to dry and add accents

Allow the painted motifs to dry thoroughly. You can then add winter accents with a decorative snow liner, a special pen that releases artificial snow. These fine details will give your scene the enchanted look of a winter wonderland.

Embellish windows

Cut the vellum paper into suitable pieces and stick them behind some of the windows of the wooden houses. This will give you the beautiful effect of frosty window panes that allow the light from the LED lights to magically shine through.

Attach the LED-chain of light

Use a hot glue gun to glue the wire of the micro LED-chain of light to the back of the wooden houses. You can either glue the battery compartment to one of the houses or later to the plywood panel. These little lights will bathe your miniature landscape in a soft, sparkling light.

Decorate the roofs and plywood panel

Coat the roofs of the houses and the plywood board with decorative snow to enhance the winter effect. Place the houses and wooden stick motifs in the still wet decorative snow on the plywood board. The edges of the wooden strips should also be coated with decorative snow to round off the overall picture harmoniously. Allow everything to dry thoroughly until the decorative snow is completely hardened.

Your winter wonderland shines

Your personal winter wonderland is now finished and ready to enchant everyone. Whether as a window decoration or as a highlight on the table - the self-designed wooden stick motifs will attract everyone's attention.
