Easter miniature decoration

Instructions No. 3616

Difficulty: Beginner

Working time: 3 Hours

Easter is just around the corner and what could be better than decorating your home with creative, self-designed Easter eggs? Our instructions show you how to create a unique decoration with a miniature bunny world using napkin technique .

This pretty bunny decoration is based on large polystyrene eggs. These can be divided. The egg halves are ideal for decorating the inside with napkin technique.

Choose a beautiful motif from your napkin and tear it out carefully. You will need the top printed paper layer of your napkin piece for your creative idea. Remove all the layers of unprinted paper underneath.

Coat the inside of the polystyrene rice with napkin varnish. This varnish serves as an adhesive and sealant. Carefully place the napkin motif on the prepared egg. Gently coat it again with a thin layer of varnish. This fixes the image in place and gives the entire surface a protective layer.

Once everything is dry, start designing your Easter miniature world. Arrange everything according to your personal taste and use hot glue to attach moss, miniatures or artificial plants to the polystyrene to give it a finishing touch.

For the perfect presentation, place your egg on a wooden ring - this not only looks beautiful, but also prevents it from tipping over.

Fancy getting creative yourself? You'll find everything you need for this project in our online store DIY-Project. Have fun crafting!

Must Have

VBS Miniature door set "Easter"

Motif size: 2.5 - 11.5 cm
Number of parts: 11
