

Easter Table Decoration

Instructions No. 2772

Difficulty: Beginner 🍴🍴🍴🍴

Working time: 3 Hours

Are you still looking for a great table decoration for your Easter celebration? Then we have just the thing for you! These cute Easter figures have been combined together with natural materials and will certainly fit perfectly on your breakfast table. They can really be enjoyed by all.

Now it's getting creative

First paint the VBS test tube holder "Egg with Bunny", as well as VBS Bunny Bonnie, "Bunny Stromy" and "Bunny Schlappi" in various Easter craft colours. There are no limits to your creativity. Draw fine lines and dots with the bamboo skewers. Then glue the mini bows to the bunnies as you like using VBS craft glue. When everything has dried sufficiently, glue the individual figures together.

Decorate the whole

Then cover the tray with plate moss and spread some decorative willow on it. Now place all the objects on the tray and decorate everything with feathers and small eggs. To create an even more beautiful look, also stick stickers on the base of the wooden plug-in motifs. You are free to choose how you decorate this. We have used some moss, willow and eggs here.

Finally, you can place individual stems of pretty flowers or plants in the VBS test tube holders. In our example, we used the single stems hyacinth and scabiosa.
