Embroidered christmas cards

Instructions No. 2056

Difficulty: Beginner

Working time: 1 hour 30 Minutes

These **cards** look very noble and are simply recreated. With our **template** you can turn cards with wool into great eye-catchers. The contrast of noble shiny papers and fluffy wool threads is the highlight!

This is how the cards are made:

Cut a rectangle of 10 x 8.5 cm from the **natural cardboard** for each card. Transfer the **motif template** to the back and prick the holes with a prickle needle (on a backing).

Embroider the motifs with the **wool**. On the back of the card, fix Handicraft glue the beginning and the end of the thread with something.

Now place the embroidered natural cardboard on the card with spacer tape or 3D Glue pads .

Cut the white inlay sheets Coloured paper **to size**, which are about 1 cm smaller in length and width than the card. Also cut out a rectangle of 6 x 3.5 cm for each card, write on it and draw a "seam" with a golden pencil. Attach to the card with double-sided Adhesive tape .

The insert sheet with the **Satin ribbon** into the card, the "unsightly" side of the thread card is covered.
