Fabric mushrooms under the glass hood

Instructions No. 1495

Difficulty: Beginner

Working time: 40 Minutes

This beautiful **table decoration with mushrooms** is sewn with fabric and then arranged together on the glass plate under the hood.

Mushroom sewing

Download the **motif template**. The required Fabric cuts are shown here in original size.

Cut out the motifs with approx. 1 cm seam allowance and sew 1 x red dot fabric and 1 x Nettle fabric to form a

small round cushion for the mushroom hat. Do not make a small opening.

Sew the **Fabric cuts** for the mushroom stalks (from Nettle fabric or natural-coloured Cotton fabric) together, leave a small opening here too.

Turn the sewn mushroom cap and stem to the right using the opening, spread well along the seams and then stuff with cotton wool **.** The openings are closed by hand with needle and thread, then both parts are sewn together.

Pull a narrow red **checked ribbon** through **Lace ribbon** and tie a decorative cuff around each mushroom. Sew small heart buttons or decorative buttons **with the** red and white dotted look for decoration on the mushrooms - they are ready for further decoration.

Arrange table decoration

Lay a small nest on the **glass plate** made of **decorative wicker** and **moss** . Position the fabric mushrooms together with small cones and mini-deco mushrooms to form a natural arrangement. Make sure that the **glass cover** fits your decoration.

Cut a red heart out of Craft cardboard sheet, using the design template. Stick on a small decorative heart and pierce a corner of the heart. Draw a narrow **Organza ribbon** through this hole and tie the Ribbon together with check ribbon and a Cotton cord decorated with heart buttons and wooden beads around the glass knob of the bell.
