Fairy Door Fairytale

Instructions No. 2392

Difficulty: Beginner

Working time: 4 Hours

What the well-known Secret Santa door is in winter, the **fairy door** is in spring and summer. Let a little fairy move into your home. This **arranged scene** with a door and **small lovingly designed miniatures** will delight the viewer. There are no limits to your imagination and you can also decorate and arrange the scene anew every now and then. In our instructions, we show you an example of how to create a fairy door and complete it vividly with garden utensils and a clothes horse.

This is how you design the fairy scene:

First design the **door** and the other **wooden items** you want to use with your desired **craft colours** and **Flaky Glue**. You can apply the lettering on the letterbox with a Posca marker.

For the clothesline:

The stand is assembled from wooden wheels, round rods and mini spools. Warp yarn represents the clothesline and is wound onto the bobbins.

Now you can decorate the clothesline with ribbon, fabric scraps and clothes pegs.

Add a miniature carpet beater for a coherent look.

For the ladder:

Shorten 2 round bars to the desired length. For the ladder rungs, glue pieces of the wooden spatula onto the round sticks.

Now you can arrange the fairy door scene to your heart's content on your skirting board or in your desired place. You can use 3D adhesive pads for this. These stick well and are easy to remove later. You could also make "rolls" of masking tape and stick them to the door and letterbox. The artificial flowers were attached with hot glue.
