Flower pots with neon accents

Instructions No. 2529

Difficulty: Beginner

Working time: 2 Hours 30 Minutes

Use edding Permanent Sprays to create stylish flower pots with bright neon accents. Turn a simple flower pot into a trendy decorative object for your home.

Neon is a colour concept that never gets boring. The popular edding permanent sprays in trendy neon colours are ideal for radiant DIY projects and lively decorating ideas.

This tutorial shows you how to turn flower pots into real eye-catchers in just a few simple steps. The pots were primed with a simple Permenant spray and then decorated with a heart in bright neon pink.

Decorated with small tags and pendants, they also make a great gift for your loved ones.

Step 1 - Get the material ready

For this idea you will need the following:

- Terracotta pots
- edding Permanent Spray in your chosen colours
- masking tape
- Pencil
- Scalpel
- edding acrylic marker

Step 2 - Priming flower pots

First select a colour shade with which all terracotta pots are to be primed. In this example, the colour "Light Grey" was used.

Tip: Spray one side first, let the paint dry a little and then spray the other side. This way you will achieve a particularly clean colour result.

Step 3 - Make a stencil

Make a stencil for the heart out of masking tape: Tear off 2 or 3 pieces of tape of the same length and stick them together to form a wide piece.

Draw a heart with a pencil. Place thick cardboard or similar under the tape and cut out the heart with a scalpel.

Step 4 - Set accents

Now it gets colourful! Stick the previously made stencil made of tape onto the flower pot and spray on a bright neon colour. Allow the paint to dry thoroughly.

Step 5 - Final touch

Once the paint is completely dry, you can remove the tape. If you wish, you can now design small tags out of clay cardboard with an edding acrylic marker and attach them to the flower pot with a cord.

Step 6 - Plant the flower pots

Once the creative design of the pots is complete, you can fill the flower pots with potting soil and plant beautiful flowers. How about some nice-smelling lavender, for example?

What makes edding Permanentspray Premium Acrylic Paint so special?

Forget the paint pot and the brush: get inspired - and spray! With edding Permanentspray Premium Acrylic Varnishes, you can quickly and easily design, restore and give virtually any surface a beautiful, creative new look.

Get creative on canvas, wood, glass, paper, metal and many other materials. The spray paint features exceptionally high opacity, dries extremely quickly and delivers long-lasting results indoors and out. Bring a dash of colour into your life!
