Difficulty: Beginner

Working time: 2 Hours

A book **for all friends** - so you can find out about your **interests, hobbies** and other exciting things. Even years later, it is totally interesting to look at your schoolmates and friends from sports in the **friends book**. A creative and personal book that leaves room for design.

This is how you make the friend book:

Print out the **free motif templates** and either transfer them to the white **cardboard** or cut them out directly.

Decorate the book and the pages according to your wishes with **motif papers** and add inscriptions and lines with the Micron **Fineliners**.

Optionally, the texts can also be written on the PC, printed out and glued on.
