Garden candles with terracotta and Raysin

Instructions No. 3056

Difficulty: Advanced

Working time: 4 Hours

Garden candles give off a beautiful light and create a great atmosphere when it starts to get dark in the garden and on the balcony. These garden candles are easy to make using terracotta pots and a plug-in device that is moulded.

How to design the garden candles:

Protect your workplace with a **handicraft mat**. First coat the inside and outside of your **terracotta pots** with clay sealant. This will make unglazed terracotta-pots waterproof.

Mix approx. 3 tablespoons **of Raysin** with water to form a creamy mixture and fill the **"stick candle holder" mold** to approx. 5 mm below the edge. Immediately after filling the mixture, place the terracotta-pot (with the underside) on the mold. Pour the rest of the casting compound into the pot. After approx. 1 hour Time to dry: you can carefully

remove the kandelaar from the mold. Now you can **spray** the pot with white **spray paint**. To achieve a special candlelight effect later, paint the inside of your pots with **Viva Decor Maya Stardust**.

Once dry, fill them as desired with **tea lights, candle sand** or **wax for candles**.

Finally, insert the **beech round stick** into the stick candle holder. Now you can stick your candle torches into the garden soil.

Must Have

Silicone casting mould "Stick candle holder"

Fill volume: 70 ml
Diameter (outside): 7.5 cm
Material: Silicone

193,29 Kč
