gift tags do it yourself with feathers

Instructions No. 3401

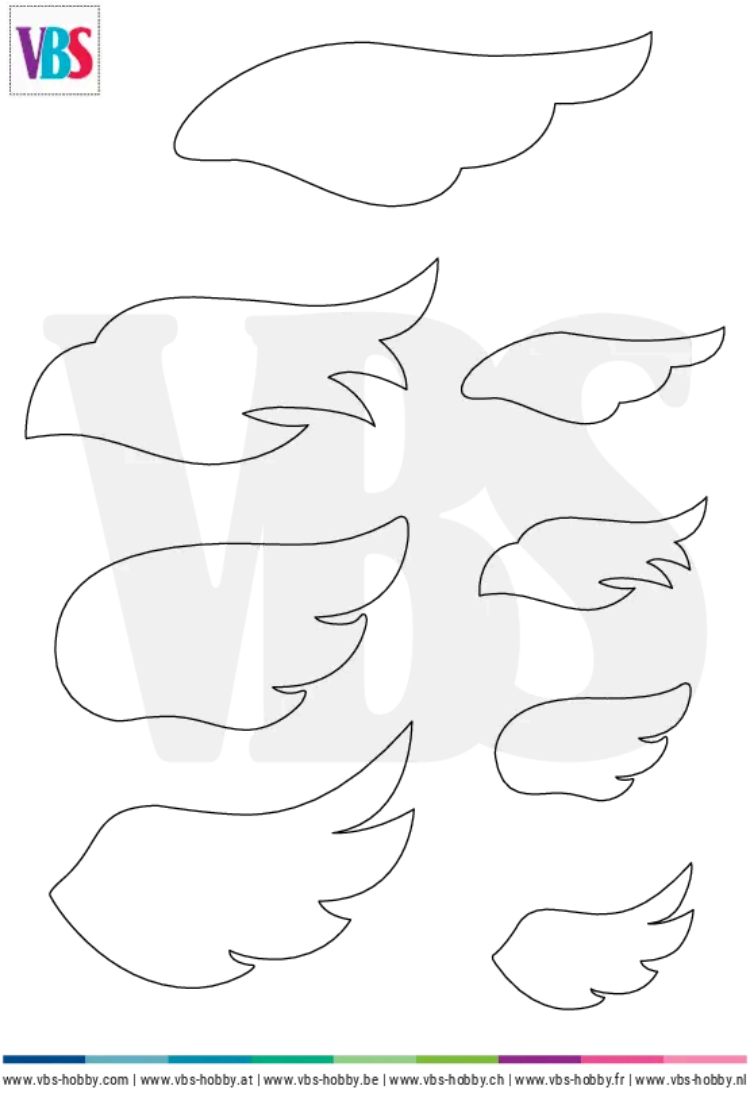

Gifts are special, and to bring that special something to the fore, it's often the little details that make the difference. Self-designed gift tags are a great way to add a personal touch to a gift. These instructions show you how to create beautiful gift tags with feathers in a few simple steps - perfect for Christmas or any other special occasion!

Create unique gift tags with feathers

1. Print or create a template

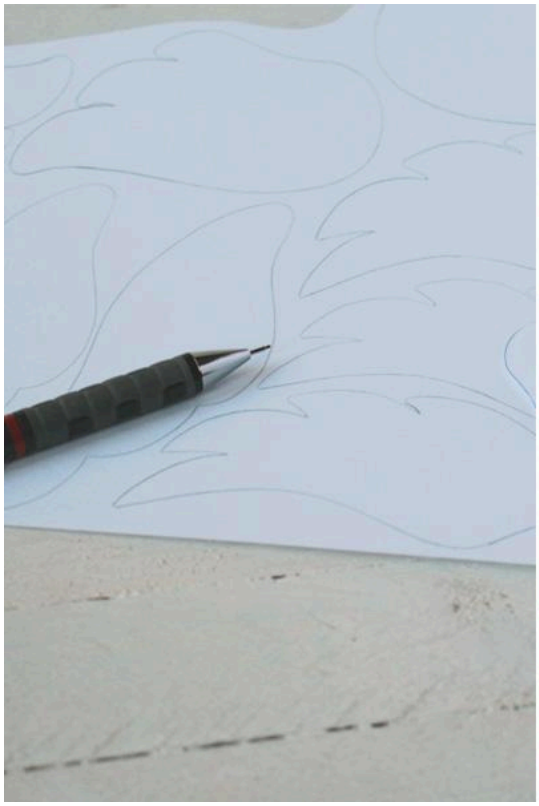

To start, print out the template for your gift tag and cut out the individual elements. If you want to enjoy creative freedom, you can also create your own templates. The template provided serves as an ideal guide. If you prefer smaller tags, smaller versions are also available.

2. Transfer templates

Once your templates are ready to use, transfer the desired shapes onto the white cardboard using a pencil. Carefully cut out the shapes and add holes in the desired places using a hole punch. check the cut-outs and

carefully erase any pencil marks. Clean work ensures a more appealing end result 😉

3. Decorate the gift tag

Now the creative part begins! Decorate the tags to your taste using stamps and stamping inks. If you have pretty handwriting, you can also design the tags without stamps or leave them plain white. A helpful tip: place a piece of Paper underneath when stamping - this way the stamp impressions are more even.

After the stamping ink has dried, attach a ribbon or a cord of the desired length. Then glue the feathers to the back. Hot glue guns are ideal for fixing the feather quickly and precisely. For a particularly fluffy look, you can also use several feathers

Of course, you can also attach the feathers first and then the ribbon - design the process however you like best. And your unique gift tags are ready 🙂
