Glass lantern with papercut

Instructions No. 2439

Difficulty: Beginner

Working time: 1 hour

Do you like our cute **lantern**? This one is very easy to make. With our **templates** you can easily create the magical decoration on the lantern and with candle sand the candle is easily implemented and an enchanting eye-catcher.

This is how the lantern is made:

Download the **templates** and then transfer them to **clay paper**. Cut them to size using a cutter. Coat the motifs with Glitter Glue and let them dry.

Then glue the finished motifs to the lantern. Poke a hole in the wing and pull the **ribbon** through, which will be tied to the lantern. If necessary, fix the wings to the glass with a little glue.

Finally, place the **wick** in the lantern and fill it with **candle sand**. If the wick is too long, you can shorten it with scissors if you wish.

Must Have

VBS Glass lantern with metal bracket

Diameter (outside): 8 cm
