Halloween wreath

Instructions No. 2279

Difficulty: Advanced

Working time: 5 Hours

Oh, it's spooky at **Halloween time**! Our door wreath is just the thing. This cool **skull wreath** with pumpkins was created with just a few simple steps and materials. Embellish your door and give your guests a ghoulish welcome.

This is how to make the spooky and beautiful wreath:

1. Spray the **polystyrene wreath** black. Spray the pumpkins in black and white as well. Let everything dry well. You may have to spray the items twice so that the colour covers nicely.
2. After the drying time, paint some of the black **pumpkins** with **IZINK**. Pre-draw the skulls on the white ones with a pencil. Then trace with markers and colour in.
3. Now you can put the pumpkins into the polystyrene wreath. Stick the fairy tale wool between the pumpkins.
4. Finally, fold out the bias tape, iron it smooth and tie it to the wreath to hang it up.
