Handkerchief basket rattan cane

Instructions No. 3680

Difficulty: Advanced

Working time: 2 Hours 30 Minutes

Would you like to make something practical yourself and discover a new crafting technique in the process? With the VBS Craft kit rattan cane "Handkerchief basket", you can create a stylish storage basket that keeps things tidy and looks decorative at the same time. The set is ideal for beginners and introduces you step by step to the world of rattan cane-weaving - without any previous knowledge. The elongated basket is perfect for handkerchiefs and can be customized at the end, for example by spraying it with colour or applying a protective varnish

Preparing the cane

In addition to the **VBS craft kit rattan cane "Handkerchief basket"**, you only need **a side cutter or sturdy scissors** to cut the rattan cane to the required length.

rattan cane is a natural wickerwork material made from the inside of the rattan palm. It is stable, flexible and ideal for baskets.

Weaving the basket

Weave the basket step by step according to the enclosed instructions. Make sure to guide the rattan cane evenly so that the shape of the handkerchief basket is clean and stable. Take your time - working calmly, especially when weaving, ensures a beautiful result.

Spray the rattan cane-basket with paint

Before you color your woven basket, check that the surface **is dry and free of dust and grease**. Only then can the paint adhere evenly and create a clean finish.

First remove the lid and then the spray head from the spray can. There is a safety ring underneath, which you carefully remove with scissors or a pointed object. Then replace the spray head and the cap.

Shake the spray can vigorously for about 3 minutes so that the paint mixes well. Spray the basket evenly from all sides. It is best to work in several thin layers.

The paint is **dust-dry** after approx. **3 minutes** and **completely dry** after approx. **30 minutes**. The exact Time to dry: depends on the thickness of the layer and the ambient temperature.

Additional protection for your wicker basket

If you wish, you can also coat your handkerchief basket with a **basket and cane varnish**. This protects the material, makes the surface more resistant and ensures that you can enjoy your homemade wicker basket for a long time.

Fancy creating your own handkerchief basket from rattan cane ? Then discover the VBS Craft kit rattan cane "Handkerchief basket" as well as matching paints and varnishes here in our online store. Start your next craft project and bring creative order into your home with your own handmade wickerwork.
