Instructions Snow decoration with angel and sleigh

Instructions No. 1268

The angels of this enchanting snow decoration are all labeled with a name! These instructions will help you to quickly make your own angels and sledges - for your own magical Christmas world!

And it is as simple as that:

The angels and the sledge are first primed with **VBS Chalky Color paint in** Antique Blue . The paint can be dried quickly with hot air. For the chalky effect, apply a layer of Chanky Wax on everything. After this paint medium has dried, another layer of Chalky Color paint (antique white) is applied. Now the dry paint is carefully removed in places with Sandpaper - this creates the typical refined chalky effect.

Now a suitable **Straw silk paper** Motif selected and carefully torn out of the sheet and applied to the sides of the decoupage sled with decoupage adhesive. The torn edges of the Straw silk paper are laminated with a little chalky paint, so that the motif is not cut out but torn, there are no annoying cut edges on the decoration.

On the edges of the sleigh and the angel wings you now carefully wipe the **golden color** with the Ink Pads . Angels

and sledges are spiced up with punched out white snowflakes further . The snowflakes can be glued on very quickly and easily with hot glue

Finally, decorate each angel with a bow and give it a name with the gold pencil. Arrange your Christmas angels with the sleigh together with plucked snow, cinnamon sticks, small gift packs or other accessories of your choice - the little Christmas scene is ready.

Must Have

VBS Angel, 6 pcs.

Content: 6 pieces
