kandelaar Watering lotus flowers and Buddha

Instructions No. 2974

Difficulty: Beginner

Working time: 4 Hours

Four **elegant bowls** in the shape of **lotus blossoms** and a **golden Buddha** are created in **just a few simple steps**. Let your creativity blossom and create a unique decoration for your home!

It's so easy to water the beautiful decorations:

This is how much Raysin you need for the different molds:

"Lotus flower bowl" silicone mold = about 4 tablespoons of Raysin

"Rectangular decorative plate" mold = about 20 tablespoons of Raysin

Silicone mold " "coaster Oval" = about 5 tbsp Raysin

Latex mold "Buddha" = about 10 tbsp Raysin

The first step is to mix the **Raysin mixture**. Make sure that it is creamy and that there are no lumps in the mixture. Then pour it into the **casting mold**. To color the lotus flowers, add 2 drops of the **colour concentrate** and stir well. Then pour the mixture into the mold. After about 45 to 60 minutes, you can remove all the castings from the mold. Leave them to air dry for a while.

You can place **tea lights** in the lotus flowers. Spray the Buddha in gold and then place the colored lotus flowers on the decorative plate. The Buddha and the white lotus flower are best placed on the oval coaster .
