Lamp with glitter ribbon

Instructions No. 1814

Difficulty: Beginner

Working time: 1 hour

A particularly noble colour combination is Black and Gold. With glitter effect your creations become even more beautiful. In our idea we have coloured one Lampshade black and decorated it from the inside with glitter tape. This lamp is guaranteed to become an absolute highlight in your living area.

How to design the glamorous lamp

First paint the **Lampshade** from the outside with black Handicraft paint. Wear the colour best with a **Paint sponge** in several layers, so that the white from shade no longer shines through. **Tip:** To speed up the drying time between the individual layers of paint, you can use a hairdryer **to** blow dry the paint

Now cut the VBS **Ribbon "Glamour" so** that it covers all sides from the inside. Fasten **double-sided Adhesive tape**. Stick it Decorative ribbons on one by one. Finally, attach it to the Lampshade base. Optionally, you can colour the lamp foot in advance
