Luminous decorative eggstanding decoration

Instructions No. 3578

Difficulty: Beginner

Working time: 1 hour

Bring some springtime sparkle into your home with a homemade Easter decoration! The bright decorative eggs standing decoration are real eye-catchers and create a warm, festive atmosphere. The step-by-step instructions show you how to create a small work of art from simple materials.

Step 1: Creative planning and painting of your decorative eggstanding decoration

Before you start, think about the design and color choice for your eggs. The matching craft paints give the stands a personal touch. Light colors are particularly suitable as they reflect the light perfectly. Once you have made your color choice and know which details you want to design with which color, paint the standing decoration with a fine brush.

Step 2: Crafting with lamp foil

Lay your decorative egg-standing decoration flat on a piece of lamp foil and trace the outer outline of the standing decoration with a fine-tip pen. Take a pair of scissors and cut out the lamp foil along the drawn lines. You can correct small cutting errors later by carefully removing any excess foil material. Now attach the cut-out lamp foil to the back of your decorative egg-standing decoration. using hot glue. Make sure to apply the glue evenly so that you get a uniform look and the foil is firmly attached to the wood. Allow the glue to dry completely before continuing.

Step 3: Installing the chain of light

For atmospheric, indirect lighting, attach a small chain of light behind the display stands. You can also use hot glue here, but be careful not to damage the chain of light . Once all the elements are securely attached and the glue is completely dry, you can place the illuminated decorative egg-standing decoration as you wish.
