Maritime Deco from Wire

Instructions No. 1934

Difficulty: Beginner

Working time: 1 hour

Wire is versatile and can be wonderfully bent. Therefore the material is perfect for making beautiful **wire figures**. Make **motifs** and **lettering from wire** and decorate your home with beautiful stone decorations made of concrete. Also a great designed souvenir or gift.

How to bend the wire figures:

Stir the **concrete according to** the instructions so that a creamy mass is formed and then fill it into the casting moulds. Allow the moulds to harden for about 2 hours. Afterwards, the stones are released from the mould and are completely dry (can be loaded after 24 hours). Existing edges can also be smoothed Sandpaper .

Download the free **motif templates**. Prepare the pegboard according to the **pegging instructions** and form the motif / lettering with the wires included in the set. Please note that a 7 to 16 cm long **piece of wire** (depending on

your taste) leads down to form the stand

Paint the stones as you like with **craft colours** and add contours and accents with the Marker.

Dab **Wooden balls** with **Beton Color** and fix it with hot glue on the poured out part. Please Stone. make sure that the hole is facing upwards.

Now insert the end of the wire into the Pearl, hole until the hot-melt adhesive has completely cured.
