Maritimes Fliesenbild

Instructions No. 1871

Difficulty: Beginner

Working time: 2 Hours

Do you want to bring a little **sea** into your home? No problem with our idea. The interplay of **tiles** and all kinds of **maritime accessories** makes this wall decoration an eye-catcher. You can also create **holiday memories** and create this great decoration individually.

This is how the wall decoration is designed:

First, the two **wooden boards** are placed next to each other with the backside facing upwards. Apply Ponal wood glue to the edge and press the boards firmly together. In addition, the pine square batten is sawn to 29cm with a craft saw and glued to the middle of the batten with Ponal wood glue. Weigh it down and let it dry for about 2 hours. Remove the staples from the inner bands of the decorative wooden boards. A slotted screwdriver is well suited for this. Knot the ends of the ribbons together to make a long one for Jute ribbon hanging up.

Now you can start **casting** tiles with **concrete for creative people and Keramin relief casting compound.** The **tiles** that you cast with Keramin can be finished to your liking with the **VBS Colour Concentrate** coloring. To do this,

simply add a few drops of the desired colour to the mixture, stir well and pour into the moulds.

Afterwards the tiles can be painted with colours, with **Napkins** to be glued or labeled. There are no limits to the imagination here. When the tiles are dry, they can be glued **to the** wooden board with **hot glue**. Likewise, your board can now be embellished with **maritime decorations**. Here everything that pleases is suitable. How about for example your souvenirs from your vacation, shells, **Sandtickets**, **photos**, **souvenirs** and much more. As you can see, the possibilities are limitless.

Must Have

VBS Decorative wood panel

Length: 29 cm
Depth: 1.5 cm
Width: 29 cm
Thickness: 0.7 cm
Material: Pine wood

154,59 Kč
