Miniature Landscape Penguin Slide

Instructions No. 2333

Difficulty: Advanced

Working time: 3 Hours

Bring the **cute winter landscape** to your home. The landscape made of styrofoam makes it easy for you to create the winter scene. Add a few accessories, **cute animals and a snowman** made of FIMO and you have a great eye-catcher on your windowsill. Or you can build a large winter village with more miniature landscapes and trees.

This is how the miniature landscape is designed:

First paint two bamboo skewers and the **sledge** with **craft paints** in your desired colours.

Stick the **stickers** onto cardboard and cut out the motifs. Then stick the motifs to the bamboo skewers so that they look like signs.

Model the **penguins, snowman and snowballs** out of FIMO and fire the figures in the oven according to the package instructions.

Paint the **river** with **craft paint** in turquoise blue. Let the paint dry and then apply 2-3 coats of Triple Gloss. This

gives the river a nice shine and makes it look like bodies of water. Now decorate the landscape with decorative snow and your made figures and accessories.
