Mixed-Media Keilrahmen mit Schmetterlingen

Instructions No. 1309

Combine Acrylic paint, stamps, concrete paint with butterflies and other accessories to create a sunny **mixed media** mural. Even inexperienced hobby painters will succeed with this painting idea

And this is how it is done

First **you** prime the 20 x 40 Stretched Canvas with water diluted **Acrylic paint** in olive green and one Paint sponge. The two Stretched Canvas in the format 15 x 15 cm are painted with **concrete paint** .

As soon as the large Stretched Canvas has dried, **curlicues** are stamped **on the** green surface with **black stamping ink** as desired. With hot glue the two small Stretched Canvas are then glued on.

To decorate, simply pull a few wooden buttons onto a Cord , attach wooden clips, cut the cord piece to fit the width of the large stretcher, knot the ends and then glue it between the two Stretched Canvas .

Finally, butterflies **and possibly** another button decoration on the "concrete surfaces" are arranged with the hot glue gun.
