Noble Advent Arrangement

Instructions No. 2302

Difficulty: Beginner

Working time: 3 Hours

"Advent, Advent, the little lights are burning, ... Always one more to light up." Advent is a beautiful reflective time. The days get darker, there is a lot of baking and the house can be beautifully decorated for Christmas. Our **Advent arrangement** looks beautiful on the table and on the dresser. Every week, another light can be lit on the Advent wreath. Of course, even the youngest among us look forward to this and Christmas comes closer with every light.

This is how the flower arrangement is conjured up:

First mix the **concrete** for the **decorative plate**. Fill the concrete slurry into the mould and let it dry for approx. 24 hours.

For the numbers, press the **modelling clay** into the **silicone mould** and allow to dry.

Decorate the **candles** according to your wishes with the **wax plates**. These can be easily cut with scissors or a sharp knife and even punched out with a punch. To do this, simply place the wax plates in the refrigerator before processing. This makes it even easier to punch and cut the motifs.

Decorate the dried concrete plate with **gold leaf**. To do this, coat the desired areas with the application milk and place the gold leaf on top. After drying, the coating varnish for metal leaf protects your decorated plate.

Find out how easy it is to use leaf metal in our illustrative video:

Must Have

Concrete for creatives, 1,5 kg

Weight: 1.5 kg

257,89 Kč (1 kg = 171,93 Kč)
