Packaging with homemade wire tags

Instructions No. 2319

Difficulty: Beginner

Working time: 2 Hours

Gift giving is not only about the great content, but also about a **beautiful and creative gift wrapping**. We show you how to make **impressive tags** with a little **wire**. Not only do they look beautiful, but you can also use the tags to personalise the gifts or write down wishes.

This is how you make the wire pendants:

Design **white card** with the **stamps** in different shades of brown. Then cut tags/pendants in your desired sizes. Punch a hole in the top with the hole punch.

Now form loose circles from the **wire** for the Christmas baubles or bend the wire several times around **cookie cutters** to create shapes like shooting stars, fir trees or similar.

Attach the **wire motifs** to the tags. Then add names to the tags as desired. This is best done with edding markers.

Tie small bows with the **jute cord** and stick them to the tags as well.

Tie the jute cord to a handle of the **bag** and hang the **bells** and tags on it.

Decorate the bags with the golden stickers.

Article information:

Article number	Article name	Qty
10191	VBS Silicone stamp "Merry X-Mas"	1
15226	Ink Pads-Set "Canyons", 4-pcs.	1
