Paper jewelry diamonds

Instructions No. 2624

Difficulty: Beginner

Working time: 3 Hours

Our decoration is both **glamorous** and sparklingly beautiful. With the help of a box template and glitter, you can easily create impressive **diamonds**. These are an eye-catcher decorated in a bowl as well as a pendant as a **Christmas tree decoration**. If you wish, the boxes can also be filled with small items.

This is how the diamonds are made:

Place the **stencil** on the **photo cardboard** and trace the outlines with a pencil. Cut out the motifs and trace the lines to be folded with a **folding bone**. This will give you nice, straight fold lines.

Would you like to hang the **diamonds** up later? Then punch a small hole in the lid with a hole punch and pull the crochet thread through it. Tie a knot on the inside.

Cut the markings for the tabs with the **cutter knife**.

Glue the folding boxes together with **handicraft glue** together.

Spray the dried diamond boxes with spray glue, place in the **funnel tray** and sprinkle with **glitter**. After drying, the remaining glitter can be tapped off and put back into the corresponding tins.
