Pine cone birds

Instructions No. 1990

Difficulty: Beginner

Working time: 2 Hours 30 Minutes

Beep, beep, we all love each other. Let the merry winter birds move into your home. The cheeky animals have a size of about 10 cm. The little birds feel very comfortable on your windowsill or chest of drawers and also as a gift to your loved ones the little birds bring much joy.

This is how the birds are made:

Stick the **chicken feet** to the fir cones **with hot glue**. Make sure that the legs are fixed in such a way that the tinkered birds will stand securely later. Then glue them on with hot Wooden balls glue

Download the **templates**, transfer them to the felt and this and Foam sheets cut everything to size. Glue the **wings to** the fir cones. We recommend to glue the self-adhesive Foam sheets wings additionally with some hot glue so that they hold well. Fasten the **caps on** the beak. Then Wooden balls. fold the beak in the middle and glue it to the balls with hot glue as well. Glue the **Wobbly eyes** on.

Take the handicraft felt to the hand. Cut a 1 cm wide strip for the **scarf on** the short side of the plate. Tie the scarf around the bird

You can now **decorate** the birds in a funny way **or** even let a little leg stick out. Much joy with your little peeps.
