Planters designed with colour spray

Instructions No. 1448

Difficulty: Beginner

Working time: 10 Minutes

With Colour spray the most sophisticated decoration ideas succeed within a few minutes!

Creative with Colour spray / basic instructions

Clean your containers before spraying so that they are free of grease and dust (for optimal adhesion of the paint). Place your object (jug or glass vase) in an old cardboard box and spray evenly at a distance of about 30 cm. The paint will have dried within a short time.

Flower jug

For the motif "feather" on the flower pot download our motif template. Cut out the template, spray it with adhesive spray and position the motif on the pot.

Glass vases

Wipe carefully over the colour sprayed glass vases with Sandpaper. Wrap a string several times around the neck of each glass vase and tie a small bow at the end.
