Pouring soaps and packaging them beautifully

Instructions No. 2884

Difficulty: Beginner

Working time: 2 Hours

Self-poured soaps are an excellent gift idea for birthdays, Christmas or just as a little present. Packaged in beautifully decorated cream tins, the nourishing soaps really make a statement.

lavender-Soap

Melt approx. **60 g of casting soap** in a **melting pot** or alternatively in a **melting ladle** over a water bath. Add a little bit of **soap colour lavenderfragrance oil lavender**, **skin care argan oil** and **cosmetic emulsifier** into the mixture. Stir everything well and pour the mixture into the **silicone mold**.

Green soaps

For the green soaps, melt approx. **120 g of casting soap**. Add **hay** and **sandalwood perfume oil**, **soap colour olive green**, **argan skin care oil** and **cosmetic emulsifier** to the melted mixture as desired. **Tip:** Fill only a **casting mold**. Add a few more drops to the remaining mixture **soap colour** and stir everything well. This will give you two different shades of green.

After approx. **4-5 hours**, you can carefully remove the finished soaps from the mold.

Wrap the soaps beautifully

Take a sheet of straw silk paper from the **natural paper"Daisy" set** and cut out an approx. 10 cm circle for each soap. You can also print out our **free template** for this. Place the circle with a **bar of soap** in the **cream jar**.

To design the lid, take a **firmer Paper** from the set and cut out a circle with a diameter of approx. 7 cm. Glue this to the lid with **VBS handicraft glue** onto the lid.

Now choose a **sticker** and stick this onto the lid too. You can use a waterproof **nano-liner** to write on the sticker as desired.
