Rustic Willow Star with Felt Flowers

Instructions No. 432

Difficulty: Beginner

Working time: 1 hour

A beautiful alternative to a door wreath is this double willow star. It is decorated with homemade felt stars, dried fruits and cinnamon sticks and brings the smell of Christmas into the house.

And here's how it works

With the help of the templates, templates for the large and small **Felt-Christmas stars** are made from strong cardboard.

Cut out 6 petals per flower from white Felt, use a needle to alternately string a wooden bead and a petal on a stable thread and knot the ends of the thread together.

Now simply lay **two willow stars on top of each other**and connect them with wire. First decorate the
3D star with apple slices, orange slices and the
cinnamon sticks and then arrange the handmade
Felt-Christmas stars on the arrangement. Everything
can be easily fixed with hot glue.

Finally, a check ribbon is attached to the poinsettia as a decorative hanging.
