Secret Santa Door Craft Scene

Instructions No. 2666

Difficulty: Advanced

Working time: 8 Hours

But **Tomte** was very creative today. And he even left something for the children so that they can become little artists with pens and paint. The **templates** can be coloured in as desired. So grab your brushes or pens and let's get started!

This is how the Secret Santa scene is designed:

Paint the **wooden parts** in the colours of your choice.

Glue the **peddigree cane** base as a table top onto the large wooden spool.

Shorten the **bamboo skewers** with the side cutters and paint them like crayons and brushes.

Cut the painting palette out of cardboard, paint on blobs of colour.

Place "pencils" in the upturned thimble on the large table.

Decorate tables with the painting utensils and some "painting sheets".

Transfer motifs onto the painting boards.

Print out the letter and sign it.

And the painting fun for the whole family can begin.
