Sew Neck Pillow

Instructions No. 1789

Difficulty: Beginner

Working time: 45 Minutes

Are you planning a trip? Then our **comfortable travel pillow** would be just the right thing for you! No more neck tensions and uncomfortable sleeping on the plane, car or train. The neck pillow provides a comfortable sleeping position for the neck and head and you wake up relaxed and recovered. It can be sewn very easily and is therefore also ideal for **sewing beginners**.

That's how you sew it:

Print out the template and place it on the fabric at the break on your chosen **fabrics**. Draw the pattern with an additional 1 cm seam allowance.

Cut out your fabrics and lay your pieces of fabric right on top of each other. Now pin everything in place. Then sew the fabric pieces together. It is best to leave a turning opening at the top

Now turn your travel pillow over and fill it with styrofoam balls **and** some cotton wool. Close the turning opening by hand, for example with a magic stitch**.**

Dear sewer, as fabrics are seasonal goods and we always want to have trendy fabrics in stock for you, it can happen that the sewn fabric is no longer in our range.

In our fabric section you will find a large selection of great fabrics. Click **here** to discover **all the fabrics**.
