Sew Star Cushion

Instructions No. 1851

Difficulty: Beginner

Working time: 1 hour 30 Minutes

In the cold season you long for cozy evenings on the sofa. With this **cushion**, which you can sew with our **free Patternof charge**, the place on the couch is even more comfortable. Besides the comfort factor our star pillow looks beautiful and is an eye-catcher in your home. Since this cushion is easy to sew, it is also suitable for sewing beginners.

This is how the cuddly cushion is sewn:

Fold your **fabric** right sides together. Place the pattern on the fabric break, pin it and transfer it to the fabric. Then cut the star with about 1 cm seam allowance. Repeat this procedure for the backing fabric.

Pin the **bias binding** just above the seam allowance front fabric from and sew it on. If necessary, those of the Lace stars can still be emphasized by sewing the bias tape at the point where it is just edged. Now place the star cut of the back view right on right on your star and fasten it. Now simply sew over the already existing seam. Leave an opening for turning. Turn the cushion and fill it with **cotton wool**. Sew the turning opening by hand, e.g. with the magic seam. At the end the **Jingles** sewn on by hand.
