Snowmen made from light bulbs

Instructions No. 2029

Difficulty: Beginner

Working time: 3 Hours

The snow trickles softly.. our snowmen **are made of** light bulbs and decorate your home. These snowmen do not look funny only , but are also made simple. Even small children's hands can help and make their own creations.

This is how you make the snowmen

Dab the **bulbs with** Chalky **CVBSolor** antique white. The best way to apply the colour is with a painting sponge. If the application is not yet sufficiently opaque, dab a second coat on the bulbs after drying. The caps and the noses are painted with the **Viva Decor Maya Stardust** colours. Cut narrow strips from the felt for the scarf. We have also cut the ends fringed to give the scarves a nice look

When everything is dry, apply the face and buttons with the penPearl. The **Felt**- Knot your scarf around the light bulb

Finally, spray the snowmen with spray glue and sprinkle them with diamond snow. For an additional shine you can also **spray** the bulbs with Marabu do it Glitter.
