Standing Figure Bunny

Instructions No. 1728

Difficulty: Beginner

Working time: 45 Minutes

Chop, chop.. create the cheeky Easter bunny. It is simply copied and looks cute in your home. He is so adorable that he makes the hearts of both adults and children beat faster. Because it is so easy to make, even children can make their own little bunny.

That way you can easily get the rabbit:

Download the templates and then cut them out. Glue the bunny template together at the marked places. Now transfer the templates to the respective The Felt sheets. hare template will be transferred twice, the remaining parts of the hare will be transferred as often as indicated on the template. A soft pencil or a line-ex-pencil, where the lines will disappear later, is very suitable for this. Now cut out everything with sharp scissors

Then apply hot glue to the two edges of the bunnies from Felt**and glue** them together. Make sure that you leave a

space open at the bottom center for the wooden stick. Glue a white pompom as a stub tail/flower on the back of the rabbit. Now you can glue on the remaining felt parts like the inner ears, face, belly and parts of the paws. With a **black pen** you draw the mouth as you like.

Finally, place the felt bunny on the wooden stand. This ends in the ear. Alternatively you can shorten the stick so that it from ends below the ear

Your Easter decorations are ready!
