

Teekanne mit Kirschblüten

Instructions No. 568

Stylized flowering twigs on white porcelain - with the high-quality porcelain paints from VBS and a fine brush, even beginners can do it. Particularly practical: before baking, small mistakes can be easily corrected, afterwards the paint is even dishwasher-safe.

And here's how it works

Thoroughly wipe the porcelain with glass cleaner, and if possible do not touch the surface afterwards.

Draw the rough course of the motif on the pot and cup with a line-ex pencil.

With the fine brush, paint delicate brown lines as branches.

Mix brown and white porcelain paint and place light points on the branches.

mixPink and white and first paint dots in a circle for the flowers.

Color the center yellow, then create a 3D effect with pure Brown and white.

Paint the handle, spout and lid knob brown.

Allow the paint to dry for about 24 hours, then put the porcelain in the cold oven and heat it up to 160°C.

Once the temperature is reached, bake the colours for 30 minutes, then let them cool in the slightly open oven.
