Vases made from porcelain cups

Instructions No. 2864

Difficulty: Beginner

Working time: 1 hour 30 Minutes

Do you still have old porcelain cups at home that you no longer need? Then conjure up impressive vases with little effort. It's really easy and you don't need only much material.

And it's that simple:

All you need for this idea are porcelain cups (preferably the same ones), a hot glue gun and edding 4200 Porcelain Brushpens.

Before the creative part begins, first remove any dust and grease residue from the cups. This is the only way to guarantee perfect paint application.

Now you can use the edding 4200 Porcelain Brushpens to design the cups as you wish. Whether stripes, circles, dots, flowers, fruit or hearts - there are no limits to your creativity!

The next step is to bake the vases so that they look beautiful for a long time. Leave the paint to dry for approx. 15 minutes and bake in a preheated oven at 160 °C for 25 minutes. Caution: Leave the cups in the oven to cool down.

Finally, glue the cups together with hot glue. Your individual vases are ready and can be decorated with beautiful flowers.
