VBS Creative Set Christmas Angel

Instructions No. 1043

Difficulty: Beginner

These enchanting angels radiate their very own charm. Made of wooden spools, jute cord and golden flower hair, these two messengers of heaven are created and combine the classic Christmas with the rustic, natural character. With some hot glue, scissors and our VBS Creative set you can create these two angels yourself in a few minutes.

And it's that easy:

Wrap the wooden spools with Jute yarn and fix the ends with hot glue. Now fix the Wooden balls with hot glue on the top of the spool
Paint a face on the angels and glue the flower hair as hairs on the balls
Transfer the template for the collar and wings to Foam sheets and cut it out. Trace the contours with the glitter liner. Let the liner dry well. Then cut the collar crosswise so that you can put it around the ball and fix it and the wings with hot glue.

Decorate the angels in your Advent arrangement or fix them on your Advent wreath. If you should decorate small gifts lovingly, you can also place the Christmas angels there decoratively. You would like to use them as Christmas tree decorations? Then simply attach a small hanging loop.

This idea is timelessly beautiful!
