VBS Creative set "Gingerbread Man"

Instructions No. 2643

Difficulty: Beginner

Working time: 3 Hours

The sweet smell of freshly baked biscuits wafts through the whole house, Christmas presents are wrapped and the punch is warmed up... Now all that's missing is the decoration. With our **gingerbread men**, we give you an idea that reflects the contemplative mood and brings a lot of cosiness into your home.

This is how the gingerbread men are made:

Glue the **half-drilled wooden balls** (35 mm) onto the **terracotta pots** with the hole facing downwards. Glue two 20 mm wooden balls each to the sides of the pots as arms. Use hot glue for this.

When the glue has dried, paint everything with terracotta coloured **craft paint**. Let it dry thoroughly and apply another coat if necessary.
Important: the individual layers of paint should always be completely dry before applying another.

Use the white **acrylic marker** to paint on the "sugar icing". It is advisable to delicately sketch this in advance with a pencil.

Now give the gingerbread men a face!
First glue on the wiggly eyes with craft glue.
To make the faces look cute, the eyes should be stuck fairly centrally on the ball. The distance between them is also important; they should not be too close, but not too far apart either.
Use a fineliner to add the mouth, nose (two delicate dots), eyelashes, moustache and the laughing eyes & winking eye. Finally, complete the faces with pink cheeks (the thick tip of a bamboo skewer is great for this).

Finally, glue on the **bows** with craft glue and you're done!

Have fun making them :-)
