VBS Hobby-Box "Gnomes"

Instructions No. 1839

Difficulty: Beginner

Working time: 0 Minutes

In our **VBSHobby-Box** you will find everything you need to create great important handicrafts. With our templates and the following explanations, you can easily create many **different gnomes to hang up** or to put down. Also for children the box contains a lot of material to be creative! Try it out right away!

For all elves

Transfer the templates for the different caps and, if necessary, the cape to the felt palettes and cut them to size. Attach the cloaks to the cones with a hemp cord. Turn the one Felt for the caps into a cone of the required size and glue the ends of the cap with hot glue. Glue a pompom on the tip of the cap. The finished caps are now glued to the figure cones, the balls, the clothespins or the fir cone. For the beard, glue fairy tale wool to your gnome. **Tip**: If you fold one end of the wool over a little and stick the beard to the cones, you will also have a moustache!

You can then trim the beard as you wish. Now glue on a small wooden bead as a nose.

1. Fir cone gnome to hang up

Here you stick the Pearl ones for the nose best to the bottom of the cap. Thus they are better fixed. Finally, for suspension, pull a Perlon thread through the top of the caps with a needle. Ready!

2. Figure Cone Gnome Big

Here you can proceed as described above in the basic instructions. Alternatively, you can still paint the gnomes or stick Decorative snow them on the cape and cap.

3. Figure Cone Gnome Small

In addition to the hats and capes we have also made earmuffs for the elves! For this we cut a piece of wire suitable for the head and glue it to the head Pompoms .

Likewise some caps were made Knitted tube with one. Let your creativity run free!

4. Spherical gnomes

Cut one Knitted tube to fit the ball. Insert the ends into the holes. To make the dwarves stand upright, cut off some of the aluminium wire and wind it into a circle. It is best to wrap three layers. Now glue it under the gnomes. In addition, the cap was also partly tinkered with for the cap.

5. Nostalgic clothespin gnome

With caps and capes, the nostalgic clothespins can be turned into cute gnomes that you can use as gift tags. Or you can hang gifts for him or her on a Advent Calendar string with these funny companions. Here you can also work with or Knitted tube even with Handicraft paint .

6. Pendant gnome with beard

Here, glue the beard into the inside of the hats. For the nose we have glued a pompom on the wool. Pull a thread through the tip of the cap with a needle and you have cute gnome pendants.
